# Responsibility for the financial statements

The Management Board is responsible for ensuring that financial statements are prepared for each financial period in accordance with International Financial Reporting Standards (IFRS), as published by the International Accounting Standards Board (IASB), which give a true and fair view of the state of affairs and results of Privredna Banka Sarajevo d.d. Sarajevo (the "Bank") for that period.

After making enquiries, the Management Board expects that the Bank has adequate resources to continue in operational existence for the foreseeable future. For this reason, the Management Board continues to adopt the going concern basis in preparing the financial statements.

In preparing those financial statements, the responsibilities of the Management Board include ensuring that:

- suitable accounting policies are selected and then applied consistently;
- judgments and estimates are reasonable and prudent;
- applicable accounting standards are followed, subject to any material departures disclosed and explained in the financial statements; and
- the financial statements are prepared on the going concern basis unless it is inappropriate to presume that the Bank will continue in business.

The Management Board is responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position of the Bank and must also; ensure that the financial statements comply with the Accounting and Audit Law in the Federation of Bosnia and Herzegovina. The Management Board is also responsible for safeguarding the assets of the Bank and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Signed on behalf of the Management Board

Hamid Pršeš

President of the Management Board

#### INDEPENDENT AUDITOR'S REPORT

To the shareholders of Privredna banka Sarajevo d.d. Sarajevo

Auditor's Report on financial statements

#### Opinion

We have audited the accompanying financial statements of Privredna banka Sarajevo d.d. Sarajevo (the "Bank"), which comprise the balance sheet as at 31 December 2021, statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at 31 December 2021 and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and the Decision on Credit Risk Management and Determination of Expected Credit Losses, issued by the Banking Agency of the Federation of Bosnia and Herzegovina.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Bosnia and Herzegovina, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Other Matters

The Banks financial statements for the year ended 31 December 2020 were audited by other auditor, who has expressed unmodified opinion on the statements on 10 February 2021...

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Tel: +387 33 295 295 E-mail: <u>info@bdobh.ba</u> BDO BH d.o.o. Sarajevo Ul. Fra Andela Zvizdovića broj 1 71000 Sarajevo

#### Key Audit Matters (continued):

#### Key Audit Matter

How have we addressed Key Audit matter

Estimate of impairment for loan losses and receivables to customers

As at 31 December 2021, the gross carrying amount of loans to customers amounted to KM 325,061 thousand. The associated provisions for impairment amounted to KM 37,660 thousand.

### Kev Audit Matter

In determining the time and amount of impairment for expected credit losses on loans to customers, the Bank's Management uses statistical models and makes estimates in the following areas:

- Use of historical data in the process of determining risk parameters;
- Credit risk assessment of exposure;
- Assessment of credit risk stage allocation;
- Success of the "Program of Special Measures" adopted in accordance with the bylaws of the regulator in response to the Covid-19 pandemic, in order to recover from the negative economic consequences caused by the pandemic;
- Assessment of the significance of subsequent changes in credit risk in order to determine a significant increase in credit risk, which leads to changes in risk stages and the necessary measurement of expected credit losses over the life time;
- Expected future cash flows from operating activities;
- Evaluation of collateral and assessment of the realization period.

Since determination of appropriate impairment allowances for expected credit losses demands the usage of significant judgement from the Management, which relates to setting the date of impairments, as well as the value of impairment, reduction of the value of given loans presents one of the key considerations which will be in the focus of the audit.

For accounting policies see Note Impairment of financial assets in Section 3 Basis for presentation and summary of significant accounting policies. For more information about key audit matter see Note Impairment losses on loans and receivables in Section 4 Significant accounting estimates and key sources of estimation uncertainty

#### **Audit Procedures**

Our audit procedure in regard to this area, among others, have included:

Performing substantive tests over recognition and measurement of impairment allowance for expected credit losses, we have considered ways and measurement techniques upon which the Bank classifies its loans, estimates impairment losses and manages impairment on the date of financial statements.

We have chosen a sample of individual loans, with emphasis on exposure with potentially the greatest impact on annual financial statements due to their value and risk, as well as, industries that have been significantly impacted by negative economic consequences of COVID-19 pandemic. In addition to that, exposures which have been listed on the "watch list"

We have conducted substantive testing over selected sample size so that we could have verify validity of the classification of loans, based on the review of its documentation, as well as, discussions with managers of customer relations and employees in charge of risk management.

For exposures with identified impairment, we have evaluated key assumptions of the Management related to expected future cash flow for of impairment calculation.

We have used our own judgement so that we have determined the parameters for impairment loss calculation and compared our finding with registered ones.

We have completed assessment and testing of the design, implementation and operative efficiency of selected controls related to approval, recording and monitoring of approved placements.

We have evaluated the complete model for expected credit losses calculation, including the calculation of main risk parameters and macroeconomic factors.

#### Responsibility of Management and Those Charged with Governance for the Financial Statements

Management Board is responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRS) and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Bank's financial reporting process, which was established by the Bank.

#### Other Information

The Management Board is responsible for other information. Other information contains information included in the Annual report, but do not include financial statements and our Independent auditor's report on them. Our opinion about annual financial statements do not include other information, unless it is explicitly said in our report, and we do not express any form of conclusion with expressing our conviction on them. About our audit of the annual financial statements, our responsibility is to read other information and, while working, evaluate whether other information significantly contradict with annual financial statements or our findings collected while auditing or it appears they have been wrongly displayed.

While reviewing the annual report we have did procedures prescribed by the law ("Zakon o računovodstvu i reviziji u Federaciji Bosne i Hercegovine"). If, based upon the work we have done, we conclude that there is significant wrong display of other information, we are required to present that fact. In that sense, we have nothing to report. Based on implemented procedure during our audit, to the extent that we were able to assess this, we report following:

- 1) The information included in the other information is in accordance, in all significant determinants, with the Bank's attached financial statements.
- 2) Annual report was prepared, in all significant determinants, in accordance with the requirements of the law ("Law on accounting and auditing in Federation of Bosnia and Herzegovina"). Based on knowledge and understanding of the Bank's operations and its environment acquired in the framework of the audit of financial statements, we have not established any significant wrong presentation of other information.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objective is to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance however is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error that are considered material if, individually or aggregate, they could reasonably be expected to influence the economic decisions of users, taken on the basis of those financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Tel: +387 33 295 295 E-mail: info@bdobh.ba **BDO BH d.o.o. Sarajevo** Ul. Fra Anđela Zvizdovića broj 1 71000 Sarajevo

## Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- identify and assess the risks of material misstatements of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence
  that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting material
  misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misinterpretations or the override of internal controls.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Bank's internal controls.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern, If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion.
- Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events in
  a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of the most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Maja Hafizović.

#### 1. GENERAL

Privredna banka Sarajevo d.d. Sarajevo (the "Bank") is registered at the Municipality court in Sarajevo, registration No. UFI/1 2609/95 dated 27 December 1995, under name Banka za obnovu i razvoj Bosne i Hercegovine. Based on the court registration No. UFI/I-3730/00, dated 9 January 2007, the Bank has changed name into BOR banka d.d. Sarajevo.

As at 30 September 2016, BOR banka d.d. Sarajevo acquired Privredna banka Sarajevo d.d. Sarajevo. Municipality Court in Sarajevo issued the Decision no. 065-0-Reg-16-004985, dated 21 December 2016, which registered the status change, and the Decision no. 065-0-Reg-16-004986, dated 21 December 2016, based on which Privredna banka Sarajevo d.d. Sarajevo was deleted from the court registry due to acquisition. Based on the Decision of the Municipality Court in Sarajevo on data change, no. 065-0-Reg-16-005588, dated 24 February 2016, data on change of Bank's name were recorded (from BOR banka d.d. to Privredna banka Sarajevo d.d.).

Principal activities of the Bank are:

- 1. receiving and placing of deposits;
- 2. purchase and selling of securities;
- 3. receiving of term and demand deposits;
- 4. making and purchasing of loans;
- 5. buying and selling foreign currencies;
- 6. cash transactions in interbank market;
- 7. cash payment and transfer both national and abroad; and
- 8. debit/credit card operations.

The Bank considers that it operates in a single business segment, and a single geographical segment, that is the provision of banking services in Bosnia and Herzegovina.

The registered address of the Bank is Obala Kulina Bana 18, 71000 Sarajevo. As at 31 December 2021, the Bank had 182 employees (31 December 2020: 177 employees).

#### 2. ADOPTION OF NEW AND REVISED STANDARDS

#### 2.1 Standards and Interpretation effective in the current period

The following standards, amendments to the existing standards and interpretations issued by the International Accounting Standards Board are effective for the current period:

- Amendments to IFRS 16: "COVID 19 Concessions in amendments to the lease agreement for the period after 30 June 2021 – extended period of application of the exemption until 30 June 2022 (effective for annual periods starting on or after 1 January 2021);
- Amendments to IFRS 7 "Financial Instruments: "Disclosures", IFRS 9 "Financial Instruments", IFRS 4 "Insurance contracts", IFRS 16 "Leases" and IAS 39 "Financial Instruments: Recognition and Measurement"— Changes regarding issues in the context of IBORs reform "phase 2" (effective for annual periods beginning on or after 1 January 2021).

## 2.2 Standards and Interpretations in issue, not yet adopted

At the date of authorization of these financial statements the following standards, amendments to existing standards and interpretations were in issue, but not yet effective:

- IAS 37:"Reservations, Potential obligations and potential assets"- Harmful contracts costs of fulfilling the contract: Amendments define which costs should be included in the entity's assessment of whether the contract will be harmful (In force for annual periods beginning on or after 1 January 2022
- IAS 16: "Property Plant and Equipment" Property, Plant and Equipment: Proceeds before Intended Use: The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the cost of producing those items, in profit or loss (annual periods beginning on or after 1 January 2022)
- Amendments to IFRS 1 "First-time Adoption of International Financial Reporting Standards" -Amendments resulting from annual Improvements to IFRS Standards 2018–2020 (annual periods beginning on or after 1 January 2022

#### 2. ADOPTION OF NEW AND REVISED STANDARDS (CONTINUED)

#### 2.2 Standards and Interpretations in issue, not yet adopted (CONTINUED)

- Amendments to IFRS 3 "Business Combinations" Reference to the Conceptual Framework (annual periods beginning on or after 1 January 2022);
- IAS 1 "Presentation of Financial Statements" Classification of Liabilities as Current or Noncurrent: Narrow-scope amendments to IAS 1 to clarify how to classify debt and other liabilities as current or non-current (annual periods beginning on or after 1 January 2022.
- IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" as regards the concealment for determining the difference between accounting policy and the accounting assessment (in force for annual periods starting on or after 1 January 2023);
- IAS 12 "Income Taxes" with regard to the narrowing of the application of IAS 12 as regards the treatment
  of deferred tax in the case of taxes in which obligations and assets arise from a single transaction (in
  force for annual periods beginning on or after 1 January 2023);

The Bank has selected not to adopt these standards, amendments and interpretations in advance of their effective dates. The Bank anticipates that the adoption of these standards, revisions and interpretations will have no material impact on the financial statements of the Bank.

## 2.2.1 Decision on credit risk management and determination of expected credit losses

During 2019, Banking Agency of the Federation B&H issued new Decision on credit risk management and determination of expected credit losses, (Official Gazette of Federation BIH no. 44/19 dated 26 June 2019), whose implementation is obligatory for all banks starting from 1 January 2020. Accordingly, banks were obliged to calculate the effects of first-time adoption of this decision on 31 December 2019, and recognize effects as of 1 January 2020 in the capital accounts and report them in Common Equity Tier 1. The effects of first-time adoption represent difference between expected credit losses determined under this Decision's provisions and those determined and accounted for by the bank under its internal methodology, in the case where expected credit losses determined in such manner are lower.

In accordance with abovementioned decision, the banks are required to establish an appropriate process for allocating exposures to credit risk stages which are directly affect on establishment of expected credit losses.

#### 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ('IFRS'). The Bank's financial statements are prepared in accordance with the legal accounting regulations applicable to banks in the Federation of Bosnia and Herzegovina ("FBiH"), based on the FBiH Accounting and Audit Act, the FBiH Bank Act and by-laws of the FBiH Banking Agency adopted under these laws. The FBiH Accounting and Audit Act determines the preparation of financial statements in accordance with International Financial Reporting Standards ('IFRS'). The FBiH Bank Act establishes the preparation of annual financial statements in accordance with the aforementioned FBiH Accounting and Audit Act, this law and bylaws adopted under both laws.

The FBiH Banking Agency has adopted a Decision on credit risk management and the identification of expected credit losses (hereinafter: Decision) applicable from 1 January 2007. January 2020 resulting in differences arising from the calculation of the value correction for credit losses by applying the minimum rates laid down in the Decision, which IFRS 9 does not require: 'Financial instruments' ('IFRS 9').

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# Statement of compliance (CONTINUED)

In accordance with the provisions of the Decision, the Bank has formed larger value corrections for credit losses of BAM 4,904 thousand as at 31st December 2021 in relation to the amount obtained by calculation stemming from the Bank's internal model, as required in IFR 9. This difference rates from the application of minimum rates of expected credit losses as follows:

- the application of the minimum rates of expected credit losses laid down in Article 23 of Decisions for credit risk exposure stage 1 - the difference of KM 420 thousand as at 31st December 2021.
- the application of the minimum rates of expected credit losses laid down in Article 24 of Decisions for exposure credit risk stage 2 the difference of KM 691 thousand as at 31st December 2021.
- the application of the minimum rates of expected credit losses laid down in Article 25 of Decisions for credit risk exposure stage 3 (non-quality assets) - difference of KM 3,793 thousand as at 31<sup>st</sup> December 2021.

#### Going concern

Financial statements are prepared under the going concern basis which assumes that the Bank will be able to realize the assets and settle the liabilities in the normal course of business.

#### Basis of preparation

The financial statements have been prepared on the historical cost basis, except for certain for certain properties and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Fair value is the price that would be received for sale or be paid for the transfer of duties in a regular transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using other valuation techniques. In estimating the fair value of assets or liabilities, the Bank takes into account the characteristics of the asset or liability which would be taken into account by market participants when determining the price of the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such basis, except for measurements that have some similarities to fair value, but are not affair value, such as value in use in IAS 36.

In addition to financial reporting, fair value indicators are classified at stages 1, 2 or 3 based on the degree to which the evaluation of the fair value can be seen and of the importance of evaluating the fair value in a whole, as follows:

- Stage 1 inputs are quoted prices (uncorrected) on active markets for identical assets or liabilities that the Bank may access on the measurement date; fair value indicators are those derived from quoted prices in active markets;
- Stage 2 inputs, other than quoted prices included in Stage 1 that are observable for the asset or liability, either directly or indirectly; and
- Stage 3 inputs are not observable inputs for the asset or liability.

The financial statements are presented in convertible marks (KM), since that is the currency in which the majority of the Bank's business events is expressed. Convertible Mark is officially tied to the euro (EUR 1 = KM 1.95583).

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Basis of preparation (continued)

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported and disclosed amounts of assets and liabilities, income and expenses. Actual results could differ from those estimates.

The estimates and underlying assumptions are reviewed regularly. Revisions to accounting estimates are recognized in the period in which the estimates are changed, and eventually in future periods, if they have an impact on them.

Information on areas with significant uncertainty in the estimates and critical judgments in applying accounting policies that have the most significant effect on the amounts and disclosures in the financial statements, are disclosed in Note 4.

Accounting policies are adequately adopted and implemented for all periods presented in these financial statements.

#### Interest income and expense

Interest income / expense is recognized in the income statement for the period that belongs to, at the applicable effective interest rate, which is the rate that exactly discounts estimated future cash receipts / payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset / liability, or, where appropriate, a shorter period. Interest income is calculated on the gross book value of the financial instrument for Stage 1 and Stage 2, while for Stage 3 the Bank calculates interest on the net amortized amount of the financial instrument.

For the POCI assets, interest income is calculated using the adjusted effective interest rate on the net amortized amount.

Calculation of the effective interest rate includes all paid or received transaction costs, fees and points, which are an integral part of the effective interest rate. Transaction costs include all incremental costs incurred directly in connection with the issuance or acquisition of financial assets or financial liabilities.

#### Fee and commission income and expense

Fees and commissions consist mainly of fees earned on domestic and foreign payment transactions, and fees for loans and other credit instruments issued by the Bank.

Fees for payment transactions are recognized in the period when services are rendered.

## **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax expense is based on taxable income for the year. Taxable income differs from net income as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Bank's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting period date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax basis used in the computation of taxable profit, and is accounted for using the balance sheet liability method.

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Taxation (continued)

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting period date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realized.

Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Bank has the ability and intention to settle on a net basis.

## Cash and cash equivalents

For the purpose of reporting cash flows, cash and cash equivalents are defined as cash, balances with the Central bank of Bosnia and Herzegovina ("CBBH"), current accounts with other banks and cash at hand.

Cash and cash equivalents exclude the compulsory minimum reserve with CBBH as these funds are not available for the Bank's day to day operations. The compulsory minimum reserve with CBBH is a required reserve to be held by all commercial banks licensed in Bosnia and Herzegovina.

#### Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognized when an entity becomes a party to the contractual provisions of the instruments, i.e. when funds are transferred to the customers' accounts, or when funds from balances due to customers are transferred to the Bank. The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial assets and financial liabilities are initially measured at fair value, except in the case of financial assets and financial liabilities recorded at FVPL. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

#### Financial assets at amortized cost

Bank measures financial assets at amortized costs using the effective interest method, if both of the following conditions are met:

- a) the financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows.
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The details of these conditions are outlined below.

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Financial instruments (continued)

Business model assessment

The Bank determines its business model at the stage that best reflects how it manages groups of financial assets to achieve its business objective. The Bank's business model is not assessed on management's intentions for an individual instrument. Thus, this condition is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios. However, a single entity may have more than one business model for managing its financial instruments.

An entity's business model refers to how an entity manages its financial assets in order to generate cash flows. That is, the entity's business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both.

Consequently, this assessment is performed on the basis of scenarios that the entity does not reasonably expect to occur, such as so-called "worst case" or "stress case" scenarios. For example, if an entity expects that it will sell a particular portfolio of financial assets only in a stress case scenario, that scenario would not affect the entity's assessment of the business model for those assets if the entity reasonably expects that such a scenario will not occur. If cash flows are released in a way that is different from the entity's expectations at the date that the entity assessed the business model (for example, if the entity sells more or fewer financial assets than it expected when it classified the assets), that does not give rise to a prior period error in the entity's financial statements nor does it change the classification of the remaining financial assets held in that business model (i.e. those assets that the entity recognized in prior periods and still holds) as long as the entity considered all relevant information that was available at the time that it made the business model assessment. However, when an entity assesses the business model for newly originated or newly purchased financial assets, it must consider information about how cash flows were realized in the past, along with all other relevant information.

#### The SPPI test

As a second step of its classification process the Bank assesses the contractual terms of financial to identify whether they meet the SPPI test. For the purpose of this test, definitions of principal and interest are presented below:

- a) principal is fair value of the financial asset at initial recognition.
- b) interest is consisted of consideration for the time value of money, for credit risk associated with outstanding amount of principal over a certain period of time and other basic risks and borrowing costs, as well as a profit margin.

Debt instruments at fair value through other comprehensive income (FVOCI)

The Bank applies the new category under IFRS 9 of debt instruments measured at FVOCI when both of the following conditions are met:

- a) the instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets, and
- b) contractual terms of a financial asset arise, on a specific date, cash flows that are solely payments of principal and interest on the principal outstanding.

These instruments had previously been classified as financial instruments available for - sale.

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# Financial instruments (continued)

FVOCI debt instruments are subsequently measured at fair value. Gains and losses arising due to changes in fair value of instrument should be presented in other comprehensive income until the financial assets are derecognized or their reclassification in other categories of financial assets.

Interest income are recognized in profit or loss in the same manner as for financial assets measured at amortized cost. Upon initial recognition, the Bank can make an irrevocable election to present in other comprehensive income subsequent changes in the fair value of particular investments in equity instrument that is not held for trading and it is not contingent consideration granted in a business combination within the scope of IFRS 3.

Gains and losses on these equity instruments are never recycled to profit. Dividends are recognized in profit or loss as other operating income when the right of the payment has been established. Equity instruments at FVOCI are not subject to an impairment assessment.

Financial assets at fair value through profit or loss (FVPL)

Financial assets should be measured at fair value through profit and loss unless it is measured at amortized cost or at fair value through other comprehensive income. However, the Bank may make an irrevocable election for certain investments in equity instruments, that should be measured at fair value through profit and loss, to reflect fair value adjustments in other comprehensive income.

Impairment of financial assets

Recognition of expected credit losses

The Bank recognizes provisions for the impairment of expected credit losses of financial assets measured at amortized cost and fair value through other comprehensive income, lease receivables, contractual assets or lease obligations and a financial guarantee contract.

The Bank is required to apply impairment requirements for the recognition and measurement of provisions for financial assets measured at fair value through other comprehensive income. However, impairment provisions should be recognized in other comprehensive income and may not reduce the carrying amount of financial assets in the balance sheet.

At each reporting date, the Bank is required to measure impairment provisions for a financial instrument in the amount equal to the duration of expected loan losses if the credit risk for that financial instrument has increased significantly from initial recognition.

Recognition of expected credit losses (continued)

Lifetime expected credit losses (LTECL) are credit losses arising from all possible unfulfilled obligations during the expected life of a financial instrument.

12-month expected credit losses (12m ECL) are a portion of the lifetime expected credit losses that represent the expected credit losses that result from default events on a financial instrument that are possible within the 12 months after the reporting date. According to the Internal Methodology for loan impairment which is updated in accordance with the requirements of the Decision on credit risk management and determination of expected credit losses, the Bank has defined the minimum criteria for measuring expected credit losses described below: In accordance with the schedule of exposures to credit risk stages, the Bank is required to apply the following minimum rates for expected credit losses:

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Financial instruments (continued)

- Stage 1: if the Bank does not have an adequate time series, and/or quantity or quality of historical relevant data and is unable to determine a value of PD parameter using its model in an adequate and documented manner, the Bank cannot determine expected credit losses for other exposures which are allocated to the credit stage risk 1 less than 1 % of the exposure.
- Stage 2: For exposure allocated to credit risk Stage 2, the Bank is required to determine and record expected credit losses in the amount greater than two:
  - a) 5% exposures,
  - b) amount determined in accordance with internal methodology of the Bank
- 3. Stage 3: The minimum rates of expected credit losses allocated to Stage 3 depend on the fact that the exposure is secured by acceptable collateral or not, and accordingly the minimum rates are as follows:
- a) exposures secured by acceptable collateral:

Ordinal number	Overdue days	Minimum expected credit loss
1.	180 days	15%
2.	from 181 to 270 days	25%
3.	from 271 to 365 days	40%
4.	from 66 to 730 days	60%
5.	from 731 to 1460 days	80%
6.	Over 1460 days	100%

b) exposures not secured by acceptable collateral:

Ordinal number	Overdue days	Minimum expected credit loss
1.	from 180 days	15%
2.	from 181 to 270 days	45%
3.	from 271 to 365 days	75%
4.	from 366 to 456 days	85%
5.	over 465 days	100%

Minimum rates of expected credit losses for trade receivables, factoring and financial leasing receivables, and other receivables, are applied according to the table as follows:

Ordinal number	Overdue days	Minimum expected credit loss
1.	from o to 30 days	2%
2.	from 31 to 90 days	10%
3.	from 91 to 180 days	50%
4.	from 181 to 365 days	75%
5.	over 365 days	100%

## Parameters of credit risk

Credit loss for exposures on individual basis is determined as positive differences between gross carrying amount of exposures and the estimated future cash flows (from operating income and/or realization of collateral) during expected useful life of the financial asset item, discounted at the effective interest rate which is valid at the reporting date. The Bank may use a number of different scenarios (from operating income and/or realization of collateral) when assessing certainty of future cash flows with a probability of their realization.

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial instruments (continued)

Recognition of expected credit losses (continued)

The Bank determine expected credit loss for exposures on group basis in accordance with the following general formula:

#### $ECL=PD \times LGD \times EaD$

Probability of default status (PD parameter)

The Bank determined the value of PD parameter on the basis on defined segments of credit exposures or PD of homogeneous group, which are appropriately (in accordance with its internal methodology) assigned the value of the PD parameter. The PD parameter for homogeneous group is estimated as the ratio of the number of placements at which default status occurred during the observation period (historical data for 3 years) and the total number of placements that were not in default at the beginning of the observed period.

Loss given default (LGD parameter)

Loss given default (LGD parameter) represents the banks internal estimate of the stage of expected loss related to exposure in the event of default status. LGD parameter is also calculated at the stage of the relevant homogenous group, based on historical data on collections from collateral or other sources after the occurrence of default status for identified homogenous groups for a period of a least recent five years. If the Bank does not have adequate time series, and/or quantity or quality of historical relevant data, and is unable to determine a value of PD parameter using its model in an adequate and documented manner, then the Bank uses fixed values of this parameter based on conservative estimates, which cannot be lower than:

- a. 45% for exposures secured by acceptable collateral,
- b. 75% for exposures not secured by acceptable collateral.

## Derecognition of financial assets

A financial asset is derecognized when the rights to receive cash flows from the financial asset have expired. The Bank also derecognizes the financial asset in the case of transfers of financial assets that meet the definition of derecognition:

- The Bank has transferred its contractual rights to receive cash flows from the financial asset.
- The Bank retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows to one or more recipients.

When the bank transfers the financial assets, it is obliged to assess the extent to which it retains the risks and rewards the asset. In this case:

- if the Bank has transferred substantially all the risks and rewards of the assets, it is obliged to derecognize the financial assets and recognize separately like assets or liabilities all rights and obligations that are incurred or retained by transfer.
- if the Bank has retained substantially all the risks and rewards of the assets, it is obliged to continue to recognize the financial assets.

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial instruments (continued)

- If the Bank has neither transferred nor retained substantially all the risks and rewards of the assets, it is obliged to determine whether it has retained control over financial assets. In this case:
- (i) if the Bank has not retained the control, it is obliged to derecognize the financial assets and recognize separately like assets or liabilities all rights and obligations that are incurred or retained by transfer.
- (ii) if the Bank retained the control, it is obliged to continue to recognize the financial assets in the amount of its part in financial assets, net for eventual impairment. Interest income is recognized using the effective interest rate, except for short-term receivables when interest would be immaterial.

Financial liabilities and equity instruments issued by the Bank

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

#### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Bank are recorded at the proceeds received, net of direct issue costs.

Financial guarantee contract liabilities

Financial guarantee contract liabilities are measured initially at their fair values and are subsequently measured at the higher of:

the amount of the obligation under the contract, as determined in accordance with IAS 37: "Provisions,
 Contingent Liabilities and Contingent Assets"; or

Financial guarantee contract liabilities (continued)

 the amount initially recognized less, where appropriate, cumulative amortization recognized in accordance with the revenue recognition policies set out at above.

#### Financial liabilities

Financial liabilities are classified as either financial liabilities "at FVTPL", or "other financial liabilities".

#### Other financial liabilities

Other financial liabilities, including liabilities to banks, customers and subordinated debt, are initially recognized at fair value less transaction costs.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Derecognition of financial liabilities (continued)

The Bank derecognizes financial liabilities when, and only when, the Bank's obligations are discharged, cancelled or they expire.

#### Leases

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognizes a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, expect for short-term leases and leases of low value assets. For these leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the lessee uses its incremental borrowing rate.

At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- (a) fixed payments, less any lease incentives receivable;
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) amounts expected to be payable by the lessee under residual value guarantees;
- (d) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option and
- (e) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The Bank adjusts the value of the lease liability determined by remeasurement and recognizes it as an adjustment to the right-use of asset using the effective interest method.

The cost of the right-of-use asset shall comprise the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee. Asset with the right-of-use is subsequently measure at cost less any accumulated depreciation and any accumulated impairment losses.

# 3.BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Property and equipment (in force until 1 January 2021)

Property is stated in the balance sheet at its revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Revaluations are performed with sufficient regularity such that the carrying amounts do not differ materially from those that would be determined using fair values at the end of the reporting period.

Any revaluation increase arising on the revaluation of such property is recognized in other comprehensive income, except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously expensed.

During 2021 The Bank decided to change the accounting policy for the valuation of fixed tangible assets (property). From 1<sup>st</sup> January 2021, accounting policy was amended, with properties on the balance sheet expressed at the cost of procurement, reduced for subsequent value correction and subsequent accommodated impairment losses. The cost of procurement includes the purchase price and all costs directly related to bringing the asset into service for the intended use.

The tables below show the effects of the change in the accounting policy of property valuation with	Balance on Effects of fi	rst	Balance on		
the effects of first application on 1st January 2021	1st January 2021 application	3′	1 December 2020		
Property and equipment	23,066	6,375	29,441		
Retained profit	(541)	331	(872)		
Revaluation reserves for property	-	(6,706)	6,706		

Equipment is stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes the purchase price and directly associated cost of bringing the asset to a working condition for its intended use

Assets under construction, built for the purpose of providing services or for administrative purposes, are stated at cost less any impairment loss. The cost of procurement includes professional fees, and, for qualifying assets, borrowing costs capitalized in accordance with the Bank's accounting policy. Such assets are reclassified to appropriate categories of property and equipment after being completed and ready for intended use.

Depreciation is charged from the moment the asset is ready for its intended use. Depreciation is calculated on a straight-line basis over the estimated useful life of the applicable assets.

Estimated useful lives were as follows:

	2021	2020
Buildings	1.3%	1.3% - 1.74%
Computers	33.3%	33.3%
Vehicles	15%	15%
Furniture and other office equipment	15%	15%

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Property and equipment (in force from 1 January 2021) (Continued)

The gain and loss arising on the disposal or retirement of an asset is recognized in the statement of profit and loss in the period they occur.

#### **Impairment**

At each reporting period date, the Bank reviews the carrying amounts of its property and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than it carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately, unless the relevant asset is land or building other than investment property carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. Reversal of impairment loss is recognized as income immediately, unless the relevant asset is carried at revalued amount, in which case the reversal of the impairment loss is treated as revaluation increase.

#### Intangible assets

Intangible assets are measured initially at purchase cost and are amortized on a straight-line basis over their estimated useful lives using rate of 33%.

#### **Employee benefits**

On behalf of its employees, the Bank pays personal income tax and contributions for pension, disability, health and unemployment insurance, on and from salaries, which are calculated as per the set legal rates during the course of the year on the gross salary. The Bank pays the tax and contributions in the favor of the institutions of the Federation of Bosnia and Herzegovina (on federal and cantonal levels).

In addition, meal allowances, transport allowances and vacation bonuses are paid in accordance with the local legislation. These expenses are recognized in the income statement in the period in which the salary expense is incurred.

# Foreign currency translation

Transactions in currencies other than Bosnia and Herzegovina KM are initially recorded at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities are translated at the rates prevailing on the reporting period date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Profits and losses arising on translation are included in the income statement for the year.

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Bank values its assets and liabilities by middle rate of CBBH valid at the date of balance sheet, which approximates market rates. The principal rates of exchange set forth by CBBH and used in the preparation of the Bank's balance sheet at the reporting dates were as follows:

31 December 2021.

1 EUR = 1.95583 KM

1 USD= 1.725631 KM

1 CHF = 1.887320 KM

31 December 2020

1 EUR = 1.95583 KM

1 USD= 1.592566 KM

1 CHF = 1.801446 KM

#### **Provisions**

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of a past event, it is probable that the Bank will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the reporting period date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, it carrying amount is the present value of those cash flows. Provisions are released only for such expenditure in respect of which provisions are recognized at inception. If the outflow of economic benefits to settle the obligations is no longer probable, the provision is reversed.

#### **Borrowing costs**

Borrowing costs that are directly attributable to the acquisition construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are included in the cost of procurement of assets, until the assets are substantially ready for its intended use or sale.

All other borrowing costs are charged to the income statement in the period in which they are incurred.

# **Equity and reserves**

Share capital

Share capital includes paid ordinary shares and is expressed in KM at nominal value.

Regulatory reserves for credit losses

Revaluation reserve for properties includes the cumulative effects of increase in the carrying amount of properties arising on the revaluation of them.

Revaluation reserve for investments

Revaluation reserve for investments comprises changes in fair value of financial assets through other comprehensive income.

# Earnings per share

The Bank publishes basic and diluted earnings per share (EPS) data. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the period. During 2020 there were no dilution effects. During 2021, the Bank emitted new shares.

# 3. BASIS FOR PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Reporting by Segment

International financial reporting standard 8: "Business segments" ("IFRS 8"), the Bank has identified two main segments: private individuals and legal entities.

A description of the business dimensions and their financial overview is shown in Note 18 these financial statements.

## 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Bank's accounting policies, which are described in Note 3, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

#### Key sources of estimation uncertainty

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the reporting period date. that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### Impact of the Coronavirus Pandemic (COVID-19)

The Bank's management has made estimates related to consideration of the impact of Coronavirus pandemic (COVID-19) on current and future operation based on available information. This consideration relates to the nature of the products and services offered, customers, the lending and deposit collection process, employees, and the geographical regions in which the Bank operates.

Except as described in certain notes to the financial statements, there are currently no indicators that there is a material impact on the financial statements or any material uncertainties regarding events or conditions that may adversely affect the Bank at the reporting date or subsequently as a result of the Coronavirus pandemic (COVID-19).

On March 20, 2020 and August 24, 2020, the Banking Agency of the Federation of Bosnia and Herzegovina adopted bylaws, i.e. measures enabling the granting of benefits to bank clients affected by the negative effects of the Covid-19 pandemic, as well as creating a framework for preservation stability of the financial sector in the Federation of Bosnia and Herzegovina. The decision on temporary measures applied by banks for recovery from the negative economic consequences caused by the viral disease "COVID-19", adopted on August 24, 2020, provides for the following special measures:

- moratorium, as a cessation in repayment of loan obligations for a maximum of 6 months,
- introduction of a "grace" period of 12 months for repayment of the principal of loan obligations in the case of loans that are repaid in annuity,

# 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

Impact of the Coronavirus Pandemic (COVID-19) (Continued)

- extension of the maturity for repayment of annuity loans,
- extension of the maturity of single-maturity loans, including revolving loans and overdrafts on bank transaction accounts for a maximum period of 12 months, whereby the bank's client could use the part of the exposure that was unused on the day of modification, during that period.
- approving an additional amount of exposure for the purpose of overcoming the client's current liquidity difficulties,
- adjusting the repayment schedule in proportion to the reduction in income or some other relevant parameter determined by the bank and
- other measures taken by the bank in order to facilitate the servicing of the client's loan obligations and the establishment of sustainable business of the client.

Banks are left with the possibility to opt for other forms of customer support, ie other modalities of facilities, with the obligation to carry out all necessary activities in order to adequately manage credit risk. During the contracting of special measures, the bank cannot charge additional fees related to the modification of the exposure, ie during the moratorium no default interest is calculated on overdue receivables. Also, the aforementioned Decision defines the segment of clients for whom special measures are available, stage of credit risk 1 and 2, and stage of credit risk 3 if the client is in the recovery period in accordance with Article 22, paragraph (3), item b) of the Decision on credit risk management and where there is regular repayment in the last 3 months until the date of application. Clients could submit requests for the application of the aforementioned measures to banks until December 31, 2020.

On April 9, 2020, the Bank's Management Board adopted the internal act "Program of Temporary Measures for Recovery from Negative Economic Consequences Caused by the COVID-19 Virus", which served as the basis for the activities that followed until December 31, 2020.

On 29th October 2021, the Bank's management adopted an internal act "Program of Temporary Measures for Recovery from Negative Economic Consequences Caused by the COVID-19 Virus", which served as the basis for the activities that followed until 31 December 2021.

On 31st December 2021, the Bank had in its loan portfolio 253 contracts (31st December 2020, 287) of individuals covered by special measures, and whose balance sheet gross exposure was on 31st December 2021, KM 9,072 thousand (31st December 2020 KM 10,629 thousand), ie net balance sheet exposure of KM 8,600 thousand (31st December 2020, KM 10,319 thousand). In the segment of the portfolio related to legal entities, the number of parties covered by special measures was 96 (31st December 2020, 154), with a gross balance exposure of KM 47,590 thousand (31st December 2020, KM 58,233 thousand), or a net balance exposure of KM 42,186 thousand (31st December 2020, KM 53,218 thousand).

#### Useful lives of property and equipment

As described in Note 3 above the Bank reviews the estimated useful lives of property and equipment at the end of each annual reporting period.

# 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

#### Impairment losses on loans and receivables

As described in Note 3 above, at each reporting period date, the Bank assessed indicators for impairment of loans and receivables and their impact on the estimated future cash flows from the loans and receivables.

#### Impairment losses on loans and receivables and provisions for off-balance exposure

The Bank monitors the creditworthiness of its customers on an ongoing basis. The need for impairment of the Bank's on-and off-balance credit risk exposures is assessed on a monthly basis. Impairment losses are made mainly against the carrying value of loans to corporate and retail customers and as provisions for liabilities and charges arising from off-balance-sheet risk exposure to customers, mainly in the form of unused loan facilities and guarantees. Impairment losses are also considered for credit risk exposures to banks and for other assets not carried at fair value, where the primary risk of impairment is not credit risk.

Regarding the financial assets carried at amortized cost, the Bank first assesses whether objective evidence of impairment exists individually for assets that are individually significant and collectively for assets that are not individually significant.

In assessing collective impairment, the following guidelines are used:

- future cash flows of a homogeneous segment/product group are estimated based on historical losses for assets with similar credit risk characteristics;
- criteria for assessing a significant increase in credit risk and measurement of losses on LTECL basis;
- information on historical loss rates are applied consistently to defined homogeneous segments/groups;
- historical losses are adjusted in line with current data which can be used consistently with the current conditions;
- methodology and assumptions used to estimate future cash flows are regularly revised, and updated as necessary.

As explained further below, the Bank calculates provisions under FBA rules, as well as estimating impairment allowances under IFRS.

During 2020, the Bank validated the methodology, and in accordance with the validation, on October 28, 2020, it adopted the amended Impairment Methodology according to IFRS 9. During 2021, the methodology has not been validated.

#### Fair value of financial instruments

As described in Note 32, the Management use their judgment in selecting an appropriate valuation technique for financial instruments not quoted in an active market. Valuation techniques commonly used by market practitioners are applied. Financial instruments are valued using a discounted cash flow analysis based on assumptions supported where possible by observable market prices or rates.

#### Estimate of the value of provisions for court disputes

The amount recognized as a reserve for litigation is the best estimate of the fee necessary to settle the current obligation at the date of the reporting period, when the likelihood of settlement is greater than the likelihood that there will be no settlement of obligations. For details on the court disputes brought against the Company on 31 December 2021 see Note 34.

### Reprograms and restructuring

Restructuring measures include a "concession" to the debtor as a result of the deterioration in the economic and financial position of the client and the impossibility of repaying the debt under the initially agreed terms. The "concession" may be change in terms of the original contract (annex) or a new contract (refinancing). Restructuring of the liabilities aims to enable the client to repay the obligations according to his real possibilities, with the provision of more efficient and secure collection of the Bank's receivables. According to this, restructuring of the liabilities represents a change in the terms and conditions agreed in the moment of loan approving (e.g. extension of repayment deadlines, changes of repayment schedule etc.). Decision on restructuring of the liabilities make authorized body of the Bank. Restructured exposures can be identified both in the non-performing and performing parts of the portfolio.

31 December 2021	Number of reprogramed loans	Gross credit exposure	Stage 1	Stage 2	Stage 3

24. LIABILITIES TO GOVERNMENT OF FBIH	31 December 2021	31 December 2020
Liabilities toward Government of FBIH – available funds	18,332	21,833
Liabilities toward Government of FBIH – invested funds	9,738	12,335
Liabilities toward Government of FBIH – interest	1,422	1,518
	29,492	35,686
Amount of approved resources through years: Long term loans to corporates at year interest rate from 4.75% (2020: interest rate 4.7% p.a.) Short term loans to corporates at year interest rate to 4.5% (2020: interest rate 4.5% p.a.)	8,300	200

Based on agreement dated 1 March 2005, between Council of Ministry of Bosnia and Herzegovina and the Government of the Federation of Bosnia and Herzegovina, on 22 August 2005 the Bank signed "Agreement for Permanent Fund Management" (the "Agreement") with the Ministry of Finance of the Federation of Bosnia and Herzegovina. In accordance with the Agreement, Bank accepts credit risk for loans granted from this fund and charges interest payable of 2% p.a. No actual interest payments are made - the credit balance is increased on 28 February every year by the amount of annual interest accrued. The Agreement is valid as long as the Bank possesses the banking license from FBA and is performing its regular banking procedures. On 18 January 2012, the Government of the Federation of Bosnia and Herzegovina paid into the Fund the amount of KM 3 million (Japanese grant). On 11 March 2013 the Government of the Federation of Bosnia and Herzegovina made additional payment in the amount of KM 4 million (Japanese grant - 2 KR). In November 2016, the Bank signed Annex 2 to the Agreement for fund management of Japanese Grant for Federation of Bosnia and Herzegovina (PVF), dated 18 August 2005. The annex approved use of free monetary funds from Japanese grants, which were placed in three commission loans with counter value of KM 8,100 thousand. There were no changes in 2017 that would require new annexes to the Agreement for Fund Management of Japanese grant for Federation of Bosnia and Herzegovina (PVF). Annex 3 was signed on April 16, 2018 which anticipates that the interest rate on commission credits will amount to 4.75% p.a., of which the fund's income is 4% and 0.75% represents the Bank's income. In 2021, a placement was agreed from the Anti-Value Fund was agreed and an annex to the contract was drawn up defining the allocation of interest in a way that 3% could touch the Japanese FBiH Fund and 1.75% of the bank's regular interest.

### 29. RELATED PARTY TRANSACTIONS

In accordance with the requirements of the International Accounting Standard 24 "Related Party Disclosures" A related party is a person or entity that is related to the entity that is preparing its financial statements:

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
  - (i) has control or joint control of the reporting entity;
  - (ii) has significant influence over the reporting entity; or
  - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity
- (b) An entity is related to a reporting entity if any of the following conditions applies:
  - (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

All of the transactions stated above have been made under commercial and banking terms and conditions:

Current liabilities from managed funds activities (Note 28)	(260)	(255)

The Bank does not bear the risk for these placements and charges a fee for its services.

### 31. RISK MANAGEMENT

### a) Capital risk management

The Bank's objectives when managing capital, which is a broader concept than the 'equity' on the face of balance sheets, are:

- To comply with the capital requirements set by the regulators of the banking markets;
- To safeguard the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

(all amounts are expressed in thousands of KM, unless otherwise stated)

### 31. RISK MANAGEMENT (CONTINUED)

The Bank expects to maintain its debt to capital ratio. Solvency indicators were as follows:

	31 December 2021	31 December 2020
Debt	528,256	521,137
Equity	51,872_	47,635
Net debt to capital ratio	10.18_	10,94

Debt is defined as due to financial institutions, due to the Government of the Federation of Bosnia and Herzegovina and due to customers as presented in detail in Notes 23, 24 and 26. Capital includes total share capital, share premium, other reserves, revaluation reserves and retained earnings.

The regulatory capital of the Bank consists of core capital.

The core capital of the Bank (fully equal to ordinary core equity) consists of paid shares, own treasury shares, share premium, retained unallocated profit and other reserves formed from profit after taxation on the basis of the decision of the Bank's General Assembly, net revaluation reserves based on changes in fair value of assets (accumulated comprehensive income), net of the amount of treasury shares, intangible assets and deferred tax assets.

The minimum capital requirements are as follows:

- regular core capital rate 6.75%
- · core capital rate 9%
- regulatory capital rate 12%

In addition to the statutory minimum adequacy rate, the Bank is also required to provide a protection layer for capital preservation that is to be maintained in the form of regular core capital in the amount of 2.5% of the total exposure amount.

The total weighted risk used to calculate capital adequacy includes:

- · the risk of weighted assets and credit equivalents,
- · position, currency, commodity risk and
- operational risk.

One of the basic processes that the Bank implements in the context of strategic risk management is the internal capital adequacy assessment process ("ICAAP"). The main objective of this process is to determine the positive level of capital that is sufficient to cover all risks that the Bank is exposed to and that are assessed as material. ICAAP serves as an internal capital adequacy assessment tool in relation to the risk profile of the Bank and the implementation of the Bank's strategy appropriate to maintaining an adequate level of internal capital. As 31 December 2021, the rates and levels of capital were as follows:

The rate of ordinary core capital	16.98%
The rate of core capital	16.98%
The rate of regulatory capital	16.98%
The rate of core capital including adjustments from Pillar 2	8.75%
The rate of core capital including adjustments from Pillar 2	11.67%
The rate of regulatory capital including adjustments from Pillar 2	15.56%

### 31. RISK MANAGEMENT (CONTINUED)

### a) Capital risk management (continued)

The table below shows the capital structure and capital indicators as 31 December 2021 and 2020:

	31 December 2021	31 December 2020
Regulatory capital	48,829	40,469
Core capital	48,829	40,469
Regular core capital	48,829	40,469
Paid capital instruments	41,030	37,041
Share premium	4,629	4,629
Accumulated income	3,459	(895)
Other comprehensive income – revaluation reserves	179	132
Deductions from regular core capital intangible assets deductions from regular core capital – missing reserves	(468)	(438)
Total regular core capital	48,829	40,469
Additional core capital  Core capital  Supplementary capital  General credit risk allowances  Deductions from supplementary capital – missing provision	48,829 - - -	40,469
Total regulatory capital	48,829	40,469
Risk weighted assets (unaudited)	287.542	276.314
Capital adequacy ratio	16.98%	14.65%

As 31 December 2021, the ratio "tangible assets / Core capital" amounted to 32.86% (31st December 2020, 71.67%) which is in accordance with Article 94 of the Law on Banks, which stipulates that Bank's total investments in fixed assets cannot exceed 40% of recognized core capital. During 2021, the Bank undertook activities on realization of the sale of the facility in Alipašina Street. Following the sale of this facility, key precondition for harmonizing the ratio of fixed assets and recognized capital with the provisions of the Law on Banks was realized. Accordingly, these activities will continue in the coming periods.

The Bank is obliged to ensure and maintain the financial leverage ratio in amount of at least 6%.

The Bank's financial leverage ratio is the ratio of the amount of the core capital to the total risk exposure of the Bank as at the reporting date, expressed as a percentage. The financial leverage ratio as 31 December 2021 amounted to 8.08% (2020: 6.88%)

### b) Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 3 to the financial statements.

(all amounts are expressed in thousands of KM, unless otherwise stated)

Other liabilities	6,410	1,839
	534,666	522,976

### d) Financial risk management objectives

The Bank's Treasury and Assets Management function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Bank through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including currency risk and fair value interest rate risk), credit risk, liquidity risk and cash flow interest rate risk.

### e) Market risk

The Bank's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates (see below points f and g).

Market risk exposures are supplemented by sensitivity analysis. There has been no change to the Bank's exposure to market risks or the manner in which it manages and measures the risk.

(all amounts are expressed in thousands of KM, unless otherwise stated)

### 31. RISK MANAGEMENT (CONTINUED)

### f) Foreign currency risk management

The Bank undertakes certain transactions denominated in foreign currencies. The carrying amounts of the Bank's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	KM	EUR	USD	CHF	Other	Total
As 31 December 2021						
ASSETS						
Cash and cash equivalents	189,383	1,893	519	1,381	775	193,951

Total monetary liabilities	394,442	119,044	3,488	4,944	1,058	522,976

### Foreign currency sensitivity analysis

The Bank is mainly exposed to EUR, USD and CHF. Since Convertible Mark (KM) is pegged to EUR, the Bank is not exposed to risk of change of EUR exchange rate.

The following table details the Bank's sensitivity to a 10% increase and decrease in KM against USD and CHF, 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in USD. A positive number below indicates an increase in profit where KM strengthens 10% against USD. For a 10% weakening of KM against USD and CHF, there would be an equal and opposite impact on the profit, and the balances below would be negative. As of 31 December 2021, the effects are minimal, considering that the Bank had adjusted receivables and liabilities.

	USD Effe	ect	CHF Ef	fect
	31 December 2021	31 December 2020	31 December 2021	31 December 2020
Profit/(loss)	2	1	1	1

(all amounts are expressed in thousands of KM, unless otherwise stated)

### 31. RISK MANAGEMENT (CONTINUED)

### g) Interest rate risk management

The Bank is exposed to interest rate risk as the Bank places and borrows funds at both fixed and floating interest rates. The risk is managed by the Bank by maintaining an appropriate mix between fixed and floating rate borrowings.

The Bank's exposures to interest rates on financial assets and financial fiabilities are detailed in the liquidity risk management section of this note (see point i).

### Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for financial instruments at the reporting period date. The analysis is prepared assuming the amount of financial instruments outstanding at the reporting period date was outstanding for the whole year. A 50-basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

if interest rates had been 50 basis points higher/lower and all other variables were held constant, the Bank' net result for the year ended 31 December 2021 would increase by KM 980 thousand (for the year ended 31 December 2020 KM 62 thousand).

### h) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Bank, The Bank has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Bank's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Bank does not have any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics. The Bank defines counterparties as having similar characteristics if they are related entities.

Except stated below in table, the carrying amount of financial asset presented in financial statements, decreased for losses based on impairments, represents the Bank's maximum exposure to credit risk without taking account of the value of any collateral obtained.

### 31. RISK MANAGEMENT (CONTINUED)

### i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Management Board, which has built an appropriate liquidity risk management framework for the management of the Bank's short, medium and long-term funding and liquidity management requirements. The Bank manages liquidity risk by maintaining adequate reserves and other financing sources, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

### Liquidity and interest risk tables

The following table details the Bank's remaining contractual maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets.

Maturity for financial assets	Weighted average effective interest rate	Less than 1 month	2 to 3 months	4 months to 1 year	2 to 5 years	5+ years	Total
31 December 2021							
Non-interest bearing		68,512	57	177	3,908	167	72,821
Fixed interest rate instruments	4.73%	22,083	15,865	64,595	129,685	67,285	299,513
Variable interest rate instruments	0.51%	199,473	137	514	493	318	200,935
		290,068	16,059	65,286	134,086	67,770	573,269
31 December 2020

Due to customers, other banks and financial institutions	-	496,014	_	496,014	
-					
_		496,014		496,014	

The fair value of financial assets and liabilities included in the above categories of Stage 2 were determined according to generally accepted models of assessment based on an analysis of discounted cash flows, the discount rate as most important input data, which reflects the credit risk of counterparties. As the discount rate used in the weighted average interest rate on the state level, published by CBBH separately for legal entities and individuals.

(all amounts are expressed in thousands of KM, unless otherwise stated)

### 33. SUBSEQUENT EVENTS

During December 2021, the Bank increased capital through the eighth share emission registered with the Securities Register of the Federation of Bosnia and Herzegovina. The Bank will register paid in capital at the Municipal Court in Sarajevo after the formal decision of Bank's Shareholders Assembly to amend and supplement the Statute of the Bank. On 3 February 2022, the Bank received prior consent to the amendment of the Statute by the Banking Agency of the Federation of Bosnia and Herzegovina

### 34. CONTINGENCIES AND COMMITMENTS

At the time of reporting there were 41 active legal disputes valued at KM 9,727 thousand against the Bank, for which the Bank has made reservations in amount of KM 623 thousand.

### 35. APPROVAL OF THE FINANCIAL STATEMENTS

These financial statements were approved by the Management as of 14 February 2022;

Hamid Pršeš

President of the Management Board

Bedina Jusičić - Musa Member of the Management Board
